Com os novos produtos da RECER, Revival, Bohème e Twenties, criamos peças inspiradas nas cores e geometrias, que nos levam até ao início do século passado, ao auge dos pavimentos e revestimentos hidráulicos.

Exploramos as possibilidades de criar padrões, com a certeza de obter um conjunto de produtos diversificados e visualmente ricos, que combinam diferentes esquemas geométricos, linguagens estéticas, memórias e modernidade.

R E V I V A L

With RECER's new products, Revival, Bohème and Twenties, we have created pieces inspired by colour and geometry, which hark back to the beginning of the last century, the height of hydraulic cement floor and wall tiles.

We explore the possibility of creating patterns, but with the certainty that we will obtain a set of diverse and visually rich products that combine different geometric schemata, aesthetic languages, memories and modernity.
